

## 6 PLACES YOU SHOULDN'T GO THIS SUMMER WITHOUT A HEADBAND SCARF

Summer is that rare, amazing time when you can leave the house for some early-morning sailing and not return home until far after dinner. For many of us, this can mean having to stuff nearly our entire inventory of hair products and accessories into a tote bag... not cool. Instead of being weighed down trying to manage your mane, just grab a non-slip headband scarf before you go out! It'll keep your hair out of your face and flyaways at bay, while making you look put together in any situation.

Here are our top six places not to go this summer without a Klara Kelly headband scarf:

1. Powerboating — no more hair blowing in your face!
2. Sailing — you'll never have to worry about your hair distracting you from being the captain of the ship!
3. Tennis — your opponent will be no match for your fierce serve... and stunningly good looks!
4. The beach — our headband scarf is quick-drying so feel free to ride out every wave!
5. Outdoor dining — who wants their hair blowing in their face when you're trying to have a romantic waterfront meal?
6. Music festivals — no time to wash your hair in between sets from your favorite bands? Spray on some dry shampoo and slip on a headband scarf and you'll be good to go!

Summer is here... Make sure you're not distracted by your hair so you can focus on having the best summer ever!
